

Zimbabwe Missions November Report

BY ALEC SANDU

We had a wonderful family reunion on the 15th of November. We gathered together for tombstone construction for our five departed beloved ones. The job went on very well. The day was full of joy and excitement as we introduced ourselves and families. We shared many exciting stories, successes and challenges in our families.

On the following day, my wife Ellina went to Simatelele for a funeral. It was very pathetic that a certain woman was struck by a lightening. After the funeral, Ellina and other ladies got into the car and a Christian lady approached them for a lift. She was limping and they could tell that she was in great agony. She had difficulty sitting down and standing up. She used a big walking stick. The ladies were very kind enough to offer her a lift. Before she got into the car, Ellina said, "Let's pray for this lady." Ellina took her by hand and supported her to a private room. They helped her to sit down.

Ellina was keen to know what happened to her leg. The sick lady said, "As I was working in my field two weeks ago, I just felt a terrible pain in my leg and could feel a movement of a snake right on my leg, and I could hardly walk." The ladies fell on their knees and faithfully prayed for her complete healing. After praying, Ellina asked her if she was still feeling the pain. She testified that the pain was gone. She stood up and walked around without a stick. She shed tears of joy because she didn't expect instant healing. She refused the offer of a lift and preferred to walk to her home. The God of yesterday, today and tomorrow is still answering prayers offered in faith. And He's still faithful to His promises in the Bible.

My prayer requests are:

- 1). 100 Bibles @\$10 each =\$1000.
- 2). 22 baptismal certificate books @10 each =\$220.

In His Service
Alec
