

Zimbabwe Missions September Report

BY ALEC SANDU

Living testimonies

I am so much humbled by the living testimonies I am receiving from brothers and sisters across Binga. August Conference was one of the unique and outstanding conferences where God did not only bring powerful message for salvation but demonstrated His divine power over sicknesses. My brother Petro Munenge was one of the people who received immediate healing during the conference.

Petro is a devoted Christian who hardly misses conferences. Three weeks before the conference, he experienced terrible pain when passing urine. He suspected bilharzia and quickly went to the hospital for treatment. The test showed negative results to bilharzia. He got confused. He became worried that he would miss the conference if the pain persisted. He attended the conference despite the pain he experienced. During the altar call, Petro humbly knelt down believing deep in his heart that God would heal him. Indeed God touched him and was healed that same evening. He went home rejoicing and praising God.

In His Service

Alec
